

Today, I re-affirm my commitment to this world and this planet that, I WILL PROTECT THIS PLANET, AND ALWAYS TRY TO FIND THE BEST SOLUTION, to bring a change in my behavior so that all my activities are in harmony with the mother nature.

I WILL RESPECT ALL LIVING THINGS, AND THE NATURAL ENVIRONMENT on which they depend, for each is a link in the chain that supports life on earth.

I WILL NOT POLLUTE THE ENVIRONMENT or degrade the quality of our air, soil or water by the improper disposal of waste: and I will otherwise set an example of good conservation conduct at home, at school and at work by recycling, reusing and reducing waste. I will help to keep the oceans, and water bodies clean and free of pollution that is home to fisheries and avoid the use of inappropriate fishing methods such as dynamiting, chemicals and spear fishing.

I WILL ACTIVELY SUPPORT WATERSHED MANAGEMENT & RE-AFFORESTATION programs. I commit myself to planting and nurturing trees and shrubs to enjoy the myriad of benefits of their existence with ours.

I WILL NOT BUY OR SELL products as a consumer, which cause environmental damage and boycott products associated directly or indirectly with environmental damage.

I WILL CONSERVE NON-RENEWABLE RESOURCES AND STRIVE TO MAKE SUSTAINABLE USE OF the NATURAL ENVIRONMENT. I will use renewable resources including forest products, water and marine resources, no faster than their ability to regenerate themselves.

I WILL CALL ATTENTION TO CASES OF POLLUTION and other abuses of nature caused by environmentally inappropriate policies, projects, commercial processes or products.

I WILL RESPECT THE ENVIRONMENT WHEREVER IN THE WORLD I GO, join environmental groups and actively support the defense of nature by others, including official and organized groups.

I Hope Through All these actions and this message I commit to share far and beyond so that each one of us can enjoy the natural environment offered by mother earth. I promise to PROTECT OUR PLANET from this day onwards to forever.
