POP Palettes

POP Movement

The Protect Our Planet (POP) Movement, founded on Earth Day in 2016, seeks to mobilize action by youth across the world. 5th June 2020 will mark 45 years since the World Environment Day was founded. POP Movement in collaboration with the World Sustainable Development Forum (WSDF) will mobilize people from around the world using the medium of online discussions, and performances.

POP Palettes

Whether it is inspiring stories, palettes of painters or songs and dance inspired, artists have turned to nature when they have needed inspiration. POP Palettes has been conceived as an initiative dedicated to Nature and Planet Earth through discussions, performances and visual arts. POP Palettes is an initiative for all generations and is a part of the POP Movement (www.thepopmovement.org) and WSDF (www.worldsdf.org).

Virtual event

To kick off *POP Palettes*, environmentalists will be pulling together the first virtual event on the World Environment Day on 5th June 2020. This virtual performance will focus on discussions and performances. The keynote address will be given by Dr. Erik Solheim who is a global voice on the environment. An open call was sent to individuals from the POP-WSDF networks and to other networks of the organizers to contribute short videos of their dance and song performance. This will be then compiled in a video called 'POP Palettes'. The virtual event will be premiered on 5th June through Zoom and Facebook Live.
