- Where do we want to be and how will we get there?
- What are the specific goals and targets?
- What resources are required?
- How will inspire and mobilize people to join you?
- What timescales are there for different stages of implementation?
- What platforms may be used (online and offline)?
- What are the tasks and routes to the achievement of targets, and means to monitor and check progress?
- How the POP Movement may be able to help you?
- Explore alternative strategies that may be adopted (*for eg. During the COVID situation, many of us adopted different approaches to continue our work*)?

Things to remember

How are we going to involve other stakeholders?

Do your research, collect and collate the data and provide it to the POP team. POP Movement will send out invitations and coordinate the arrangement.

How can we highlight our own projects?

You can design the session in a manner that requires you to present your projects during the session. Otherwise, you may submit your projects to be presented at the main platform provided at the POP Festival (More info to be shared soon)

Can we add more people to work with us?

The aim of this project is to mobilize young people to take action. What could be better than engaging more people in the process! A formal introduction of the new member will take place if anybody is mobilized

Short to long term goal -

- This will be something created by you as a group to mobilize, inspire and demand action.
- It will be an opportunity to associate and/or improvise your area of work/ interventions with the help of different stakeholders
- This will serve as platform for you to advocate as a voice of youth for a particular issue by approaching stakeholders like businesses, academia, NGOs, communities and science and technology etc..
