

Mentorship Program 2026

Empowering Youth for Localized Climate Action

INTRODUCTION

The POP (Protect Our Planet) Movement Mentorship Program 2026 is an initiative dedicated to empowering passionate young changemakers for localized climate action. The program equips youth, students, and early-career practitioners with practical skills, including eco-auditing, stakeholder mapping, and project design. Through expert-led workshops, advanced leadership training, and global mentorship, participants develop customized micro-action plans to build community-driven grassroots climate resilience and engage in local policy-making.

KEY AREAS

- Building youth-led climate leadership and grassroots advocacy networks.
- Integrating Indigenous and local knowledge into climate solutions.
- Skill-building and green entrepreneurship for community resilience.
- Youth participation in local governance and climate policy-making.

OBJECTIVES

1. To foster youth-led leadership and grassroots advocacy networks for community-driven climate solutions.
2. To strengthen youth capacity to identify and respond to localized climate vulnerabilities through knowledge-based action.
3. To bridge climate awareness and implementation by equipping youth with practical project design and stakeholder engagement skills.
4. To enable youth participation in local governance and policy processes to drive sustainable and long-term climate resilience.

DURATION

15 days - October 2026 (35 Hours)

PERKS

1. Opportunity to connect with global climate leaders and changemakers.
2. Featured recognition on the POP global platform.
3. Access to dedicated mentorship pathways for emerging youth leaders.
4. Official certificate of recognition from the POP (Protect Our Planet) Movement.
5. Invitation to POP's global events and convenings.
6. Access to the POP Academy leadership program.
7. Opportunity to be a Trainee Mentor at POP Movement.

TARGET AUDIENCE

The target audience for this program includes youth and young professionals passionate about climate action and community leadership. It is specifically designed to support students, early-career practitioners, and dedicated grassroots volunteers. Additionally, the initiative serves as an ideal platform for young changemakers seeking to formalize and expand their environmental impact.

CONCLUSION

The POP Movement Mentorship Program 2026 is a transformative journey that equips young leaders with the skills and networks to drive meaningful climate action. By bridging climate awareness with practical implementation, participants leave with actionable Micro-Action Plans ready to build community resilience. This initiative ultimately empowers the next generation of changemakers to participate in local governance, lead grassroots advocacy networks, and drive long-term climate resilience.
